Note: Some products in this catalog are manufactured with ozone depleting substances and are referenced with this warning:

WARNING

Manufactured with CFC-113, a substance which harms public health and environment by destroying ozone in the upper atmosphere.

Ozone Depleting Substances

The final rule for identification of product manufactured with or containing ozone depleting substances (CFCs/HCFCs) such as freon, carbon tetrachloride, etc., was issued by the Environmental Protection Agency in February of 1993. The rule requires that the consumer should be aware when the purchase decision is made that the product contains or was manufactured with an ozone depleting substance.

For several years, Abbott Laboratories has been actively developing processes that would not require the use of these agents. We are well on our way to accomplishing this goal. Some of the changes made include modifying our sterilization processes, our cleaning processes for incoming materials and working with our own suppliers to gain their commitment to eliminate the use of these substances in their manufacturing processes.

Noted within the pages of this catalog are items which currently* are manufactured using ozone depleting substances. These items are designated by a + symbol following the list number.

*As of the publication date of this catalog - March 26, 1994.

Any excise, sales or other taxes applicable will be added to the invoice.
- Pricing claims/verification requests are accepted up to 12 months from date of invoice.

Proof of Delivery

- Any request for Proof of Delivery must be made within 120 days of invoice.

Customer

- Deliveries should be inspected for discrepancies before carrier departs. Note discrepancies on the freight bill, or refuse damaged freight whenever possible. Otherwise, notify Corporate Customer Service (1-800-222-6883) of concealed damages or shortages within 10 days of receipt. Full credit or replacement will be issued.

No modification of the foregoing Terms and Conditions of Sale including any different or additional terms contained in any purchase order, acknowledgement form or other written document, will be binding on Abbott unless specifically accepted in writing and signed on behalf of Abbott by an authorized representative. All orders are subject to acceptance at the home office, Abbott Park, Illinois.

1994 Price Catalog

How To Use This Catalog

Purchasing Example:

List number 3193-01 is packaged as 3 inner packs per case. There are 10 units in each inner pack. This item is packaged 30 units to the case. You will be purchasing full cases only. Price is reflective of 10 units. This was done so that your wholesaler can sell in quantities of inner packs (10 units) versus case packs (30 units). If your hospital requires less than case quantities the wholesaler will sell in inner packs.

YOUR ORDER WOULD BE 3 x 10's = 30 units
 6 x 10's = 60 units
 9 x 10's = 90 units

The shaded value is the "MULTIPLE OF" number for that item.

Please note that all items displayed with a shaded number 1 are priced and sold as full cases, not broken down to inner packs (see sample list number 4532-24).
